

# MIDCON WIRING SOLUTIONS

## ***EverFlex®***

*Technology for Affordable Value!*

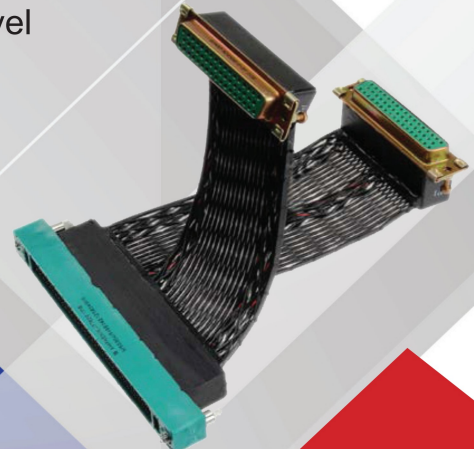

### INTRODUCTION

Our Engineers are ready to work closely with you every step of the way, E2E - developing the *EverFlex®* solution to meet your interconnection needs. Midcon...leading the way in the development of innovative connection technology.

*Please contact us today by Phone, Fax or E-mail, or come visit our Website.*

### FEATURES & BENEFITS

- Integrates various conductor types & sizes (signal, power, RF ...)
- Meets stringent environmental requirements (EMI, temperature, shock, vibration ...)
- Incorporates today's latest technology ... ethernet, fire wire, USB, controlled impedance, phased matched, fiber optic
- Integrated features enable efficient assembly at the next level
- Eliminates cable clutter, snagging, pinching
